

I am

Electricity  
Officer

I'm trying to

Energy saving  
street light with  
weather protection

But

i don't know about  
the weather because  
i am a humen

Because

I can't monitor  
the weather at  
all time

Which makes me feel

Sometimes power shutdown  
make the lights are off so  
many accidents and humans  
are affected by injuries due  
to the weather.
